

*Advancing the Practical Application of Suspension Technology*

June 30, 2022

Dear Customer,

The cost of our major raw material (steel) has eased, so we are pleased to announce price reductions of our fabricated products for the rest of 2022. However other materials (i.e., springs, fasteners, etc.) have increased, so prices for our single point (H900) suspensions and individual springs will once again increase.

Effective with shipments August 1<sup>st</sup>, 2022, through December 31<sup>st</sup>, 2022, Hutchens' prices will change as follows:

- Sliders and subframes -13%
- 9600 and 9700 (four spring type suspension) -13%
- High volume body rails -26%
- Low volume body rails -13%
- Single point (H900) +2
- 11455 suspensions – No change
- Replacement parts -13%
- Springs + (Increase percentage varies per spring)

Thank you for your business,

Dan Cordier  
Vice President Sales – USA  
Hutchens Industries, Inc.

Eugene Robinett  
Vice President Sales - International  
Hutchens Industries, Inc.
