

THE HUTCH 9001 I-Beam Slider

For Flatbeds and Chassis

A new **lightweight version** of the Hutch 9000 4-pin slider, the Hutch 9001 is designed for flatbed and intermodal chassis applications.

- A weight savings of 88 to 126 lbs. depending on frame width.
- Totally interchangeable with the 9000 4-pin slide.
- Weight capacity ratings up to 25,000 lbs./axle.
- Hutchens can "soft coat" or galvanize the 9001 for increased corrosion protection.

The Hutch 9001 I-Beam Slider offers the superior durability, reliability and performance needed for your flatbed and intermodal applications - and it is backed by Hutchens' on-time delivery, warranty, and commitment to after-sale support and service.
