

THE HUTCH 9036i I-Beam Slider

For Intermodal Chassis

An improved version of the Hutch 9000 2-pin slider, the Hutch 9036i with 36" spring I-beam centers is specifically designed for intermodal chassis applications.

- Totally interchangeable with the 9000 2-pin chassis slide.
- Weight capacity rating up to 25,000 lbs/axle.
- The design, material and welding/assembly process has been optimized to produce a durable, lightweight frame that offers years of trouble-free service.

The Hutch 9036i I-Beam Slider offers the superior durability, reliability and performance needed for your intermodal applications - and it is backed by Hutchens' on-time delivery, warranty, and commitment to after-sale support and service.
